COOLEY'S GARDENS

SILVERTON, OREGON

February 20th, 1941

OPPORTUNITY

Sometimes it knocks twice in the same place!

You are one of the 30,000 people who last year received the iris catalog of Cooley's Gardens. Perhaps you now have irises growing in your garden, selected from the pages of that catalog, and you are keenly looking forward to the approaching iris season, when they will bloom for you.

But a vast number of folks could not obtain all of the varieties they desired....many were sold out within a surprisingly short time. There were instances where a lean garden budget overshadowed the desire to take advantage of tempting collection offers. The reasons why you didn't add the irises you wanted may be many and varied, but this special announcement brings GOOD NEWS even to those whose gardens already boast a fine collection!

NEW COLLECTIONS at \$2....\$3....\$5....\$10

*Look inside this folder---the first glance will tell you that even last year's bargains are being outdone. And by ordering now, you definitely make sure of two important things:

1. You will get your order filled completely, exactly as you want it. No second choices, no substitutions.
2. Delivery will be made right off the bat, in June, so that your plants will have all summer to grow for you.

These collections will not be repeated in our catalog, published late in May. Stocks of many varieties are short, and such will not even be listed. Others will be offered, but not in collections.

AND HERE IS THE WHY OF ALL THIS --

By presenting a special offer at this time, for acceptance during a very limited period, we both gain from the following advantages:

1. The plants you order will be "ear-marked" now, and labels, tags, and office procedure will be taken care of in advance of the rush season.
2. Orders can be dug and shipped weeks before they possibly could be when ordinarily selected from the catalog.
3. The catalog can be made up following expiration of this offer, lessening risk of overselling on some items and consequent disappointment of many customers.

*MARCH 10th IS THE LAST DAY....ORDER AT ONCE!

FREE IRIS PLANTS -- Every collection has a remarkable offer of extra value plants free.

Turn the page and order today.

Yours for better irises,

COOLEY'S GARDENS
